

Everyday I wake up fresh and look forward to being a part of the new vision. This new vision is making sure I'm a major part of all being well around me.

Thanks to everyone that was a part of my entry into the organization Opening Doors. My thoughts of the group never stops.

Anyone that has devoted the time and the efforts already knows exactly what those three days of group creates. Day one teaches you how to appreciate and trust all the complete strangers of the group. With respect to this thought the bottom line truth is each stranger was of ones own peer group. Therefore, each new face seen at a table or where ever the open seat is, represents a salesperson for working together. The problems at RCI is our major goal.

People actually opened up their hearts and told me secrets that were great pain to them. Those times were when I learned how to be all ears. While being all ears they had their chance to self heal. All of a sudden, someone was all ears for me. When I saw how good it felt to drop the load that as holding me back, I became hooked...hooked for the need to go deeper into my mind to heal. RCI has someone everywhere you go needing to get something off their chest. Therefore I seek to find more and more help for myself and others. People actually appreciate knowing that they too can also be a part of a positive outlet. Once you include them by just saying something like how you feel about it is the reward.

By letting others know we're all of the same group is the start of a better association for all that wish to stand for the same cause. There are times when some people reject the actual thought of anything or anyone standing for good. Upon seeing such rejection is not an issue to debate for each person has choices. As my own individual self I appreciate the part of Opening Doors 3 day program that teaches you how to clap your hands, pop your fingers, and think fast each time your turn comes. This is exactly what I use when I come face to face with Mr. Nothing who stands for nothing. Opening Doors 3 day is not a group for people that wish to stay behind their own closed doors. My actions to help and want to be a part of a ball being passed forever and ever in existence for the betterment of all that wish it.

As I conclude these words I really wish all to know...I've already won everything that could be appreciated when I left my tears on the floor walking out of the 3 day program. So now I feel like I have everything and this another day to say hello to someone else as Lucky Lorenzo, nothing more.

Respectfully I am,
